PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on training in SAP ECC, SAP S/4HANA, and SAP HANA 2.0. Skilled in system installation, configuration, transport management, client administration, and database operations. Familiar with SAP architecture, system monitoring, SAP HANA monitoring, performance troubleshooting, router configuration basics, and post-installation activities.

TECHNICAL SKILLS

SAP Technologies: SAP BASIS, SAP HANA 2.0, SAP ECC, SAP S/4HANA

Administration: System Installation, Configuration, Client Administration, User Management

Monitoring: SM50, SM51, ST22, SM21, ST03N, ST06, SAP HANA Monitoring

Transport & DB: STMS, Backup, Kernel Upgrade, SPAM

Tools: HANA Studio

Concepts: Work Process Monitoring, System Logs, Client Copy (SCC4), Router Configuration Basics

PROJECT EXPERIENCE

SAP BASIS & SAP HANA Administration (Hands-on Training)

- 1 Installed and configured SAP ECC and SAP S/4HANA systems
- 2 Performed post-installation activities including profile configuration, RFC setup, and transport routes
- 3 Configured basic router settings for secure communication
- 4 Monitored system performance using SM50, SM51, ST22, SM21, ST03N and SAP HANA monitoring tools
- 5 Executed database backup and restore activities
- 6 Managed client administration including client copy (SCC4)
- 7 Configured Transport Management System (STMS)
- 8 Applied kernel upgrades and support packages (SPAM)
- 9 Monitored SAP HANA systems using HANA Studio
- 10 Troubleshot system errors and performance issues

EDUCATION

B.Tech in Artificial Intelligence - JNTUK University (2025)
